Detailed Substance Report

Data as of: June 15, 2017

Please note the 2016 NPRI Data are preliminary. The preliminary data is made available for the purpose of engaging reporting facilities to review their submitted data and signal any necessary corrections or updates. Any interpretation of the 2016 NPRI data or their comparison with previous years' NPRI data must consider the possible presence of estimation, calculation or input errors made by facilities. Reviewed 2016 NPRI data will be made available once the annual quality control process is complete.

Substance: 2-Butoxyethanol

Company/Facility information: Charlotte Products Ltd./CHARLOTTE PRODUCTS LIMITED - PETERBOROUGH (2014)

Information for CHARLOTTE PRODUCTS LIMITED - PETERBOROUGH

Company	Charlotte Products Ltd.
Facility	CHARLOTTE PRODUCTS LIMITED - PETERBOROUGH
NPRI ID	7089
Address	2060 Fisher Drive Peterborough, ON K9J8N4 Canada

Substance Information

Substance name	2-Butoxyethanol
CAS Number	111-76-2
Units	tonnes

More information	Click here for more information on this substance.
-------------------------	--

Note: This facility declared that it met the reporting threshold for this substance for this year.

Comments for this Substance

The facility did not provide any comments.

Nature of Facility Activities Related to this Substance

The following Indicate whether the substance was manufactured, processed or otherwise used, and the nature of such activities.

- **Manufactured**

Not available

- **Processed**

As a formulation component.

- **Otherwise Used**

Not available

On-Site Releases

Medium	Release	Quantity (tonnes)	Basis of Estimate Code *
Releases to Air	Stack or point releases	-	-
	Storage or handling releases	-	-
	Fugitive releases	-	-
	Spills	-	-
	Other non-point releases	-	-
	Sub-total	0	
Releases to Surface Water	Direct discharges	-	-
	Spills	-	-
	Leaks	-	-
	Sub-total	0	
Releases to Land	Spills	-	-
	Leaks	-	-
	Other	-	-
	Sub-total	0	
Total releases		0.01	

* There may not be detailed release information for certain substances, because if the total releases of an NPRI Part 1A substance were less than one tonne, only the total releases may be reported.

Reasons for Changes in Quantities Released from Previous Year

- No significant change. (less than 10% change)

Quarterly Releases

Quarter	Release Percentage
1st	25 %
2nd	25 %
3rd	25 %
4th	25 %

Release Comments

Reporter Comments (Releases)

The facility did not provide any comments.

Disposals

Type	Disposal Method	Quantity (tonnes)	Basis of Estimate Code
On-Site disposal	Landfill	-	Not available
	Land treatment or application farming	-	Not available
	Underground Injection	-	Not available
	Tailings	-	
	Waste rock	-	
	Sub-total	0	
Off-Site disposal	Containment, landfill	-	Not available
	Land treatment or application farming	-	Not available
	Underground Injection	-	Not available
	Containment, other storage	-	Not available
	Tailings	-	
	Waste rock	-	
	Sub-total	0	
Off-Site treatment prior to final disposal	Physical treatment	-	Not available
	Chemical treatment	-	Not available
	Biological treatment	-	Not available
	Incineration or thermal	-	Not available
	Municipal sewage treatment plant (MSTP)	-	Not available
	Sub-total	-	
Total Disposals		-	

Reasons for Changes in Quantities Disposed from Previous Year

- No significant change. (less than 10% change)

Disposal Comments

Reporter Comments (Disposals)

The facility did not provide any comments.

Off-Site Transfers for Recycling

Recycling Activities	Quantity (tonnes)	Basis of Estimate Code	Receiving Facility	Quantity Received (tonnes)
Energy Recovery	-	Not available		
Recovery of Solvents	-	Not available		
Recovery of Organics (not Solvents)	-	Not available		
Recovery of Metals	-	Not available		
Recovery of Inorganics (not metals)	-	Not available		
Recovery of Acids or Bases	-	Not available		
Recovery of Catalysts	-	Not available		
Recovery of Pollution Abatement Residues	-	Not available		
Refining or reuse of Used Oil	-	Not available		
Other	-	Not available		
Total Transfers for Recycling	0			0

Reasons for Changes in Quantities Recycled from Previous Year

- No significant change. (less than 10% change)

Recycling Comments

Reporter Comments (Recycling)

The facility did not provide any comments.
