

Restoration Products

FINISH REMOVAL

ES90

STRIPPER
ES90 Clean Cut Concentrated Floor Stripper

A highly active concentrated stripper which is fast acting, economical at use dilution, less slippery when scrubbing, and easy to use. Very low odor.

ES90 Available in:
946 ml Bottle (1 U.S. Qt.)
18.9 L Pail (5 U.S. Gal.)

ES90CS Available in:
1.89 L Bottle (0.50 U.S. Gal.)
4.73 L Bottle (1.25 U.S. Gal.)

FINISH RECOVERY

ES91

MAINTAINER
ES91 Deep Scrub

An interim light scrub/recoat product that removes damaged and dull top coats of floor finish allowing easy re-application of new floor finish coats. Designed to extend floor finish life and save labor. Lets you quickly remove surface floor finish coats without stripping away the complete floor finish coating.

ES91 Available in:
3.78 L Bottle (1 U.S. Gal.)

ICE MELT RESIDUE REMOVAL

ES83

WINTER CLEANER
ES83 Haze Away Neutral Floor Cleaner

Removes white film of ice melt chemicals deposited at entranceways. Demineralizes salt deposits on floor. Reduces slip hazards by eliminating the ice melt film which attracts water.

ES83C Available in:
1.89 L (0.50 U.S. Gal.)
4.73 L (1.25 U.S. Gal.)

ES83 Available in:
3.78 L (1.0 U.S. Gal.)

Maintenance Products

NEUTRAL CLEANING

ES72

DAILY CLEANER
ES72 Hydrogen Peroxide. Multi-Purpose Cleaner

Multi-purpose cleaner, degreaser and odor eliminator. Various applications depending upon the dilution rate used.

ES72 Available in:
3.78 L Bottle (1 U.S. Gal.)

ES72C Available in:
2.0 L Bottle (0.52 U.S. Gal.)
4.73 L Bottle (1.25 U.S. Gal.)

ES84

DAILY CLEANER
ES84 Neutral Floor Cleaner - with Envirocide

Very effective cleaner that lifts the dirt out and leaves the shine. Excellent for daily or weekly maintenance. No rinsing. Contains no alkaline builders to leave a residue. Contains Envirocide Odor Eliminator.

ES84 Available in:
3.78 L Bottle (1 U.S. Gal.)
18.9 L Pail (5 U.S. Gal.)

ES84CS Available in:
1.89 L Bottle (0.50 U.S. Gal.)
4.73 L Bottle (1.25 U.S. Gal.)

LOW SPEED

ES86

MAINTAINER
ES86 Spray Buff Solution

Enhances the gloss and removes soil and scuff marks on high traffic or damaged areas of the floor.

Actually increases the durability of the floor finish.

ES86 Available in:
3.78 L (1.0 U.S. Gal.)

HIGH SPEED

ES95

MAINTAINER
ES95 Restoration Wash, Gloss, Traction and Buff

New technology to clean, polish and improve slip resistance in one step. Can be used as a spray buff, in an auto scrubber, or mopped on.

ES95 Available in:
3.78 L Bottle (1 U.S. Gal.)

Seal & Finish

HIGH ABUSE - LOW SHEEN

ES82

FINISH - CLASSROOMS
ES82 Barricade Sealer/Finish

An acrylic blend of polymers with excellent protective properties. Resists the penetration of over 30 common staining and soiling agents. Low gloss. Excellent durability (semi-permanent), ideal for scrub and recoat. Recommended for spray buffing with floor machines up to 1000 R.P.M. Zinc free.

ES82 Available in:
3.78 L Bottle (1 U.S. Gal.)
18.9 L Pail (5 U.S. Gal.)

DURABLE SHINE

ES96

FINISH - HALLWAYS (TRADITIONAL)
ES96 High Traffic Floor Finish

A high gloss/wet look floor finish which is very durable, stain and black heel mark resistant. Designed for UHS burnishing weekly to occasionally. Easy to clean & easy to maintain.

ES96 Available in:
3.78 L Bottle (1 U.S. Gal.)
18.9 L Pail (5 U.S. Gal.)

GREEN CERTIFIED

ES98

FINISH - HALLWAYS (GREEN)
ES98 Green Certified Floor Finish

For day after day high traffic and high gloss floors. Durable, greater initial gloss, scuff and black mark resistance. Responds better to high speed burnishing/buffing. Pleasant odor. Designed for UHS burnishing system. Easy to clean, easy to maintain.

ES98 Available in:
3.78 L Bottle (1 U.S. Gal.)
18.9 L Pail (5 U.S. Gal.)

ENDURING GLOSS

ES80

FINISH
ES80 High Gloss Floor Finish

For day after day super high gloss floors. Durable, stain and black heel mark resistant. Designed for UHS burnishing system. Easy to clean, easy to maintain.

ES80 Available in:
3.78 L (1.0 U.S. Gal.)
18.9 L (5.0 U.S. Gal.)

Selecting the right Hard Floor Care chemistry for your facility is completely dependent upon the equipment available to you and your staff. From the chart below, choose the products that are right for you and your facility.

Process Definitions

- Cord Low-Speed:** Hard floor area is limited in size and only low-speed, corded floor machines are available.
- Cord High-Speed:** Hard floor area is moderate in size and corded buffers and burnishers are available.
- Full High-Speed:** Hard floor area is moderately large and buffers, automatic scrubbers and corded, battery or propane burnishers are available. Retained gloss in common areas is fully expected.

OBJECTIVE

To be able to restore and maintain a minimal amount of hard floor surface within a facility with minimal equipment.

RECOMMENDED PRODUCTS

Restoration Products: ES90(strip) or ES91(scrub)
Maintenance Products: ES83, ES84, ES86
Sealer & Finish: ES82, ES96

OBSTACLE

Daily routines of dust and damp-mopping must be done diligently to keep abrasive and damaging grit to a minimum.

RECOMMENDED PROCESS

Floor surfaces will likely be stripped (with ES90) annually and deep-scrubbed (with ES91) semi-annually. High abuse areas will be coated with ES82 only, high visibility areas will be top-coated with ES96 and spray-buffed with ES86 as needed to maintain acceptable levels of gloss.

OBJECTIVE

To be able to restore and maintain a moderate amount of hard floor surface within a facility with corded low and hi-speed equipment.

RECOMMENDED PRODUCTS

Restoration Products: ES90 (strip) or ES91 (scrub)
Maintenance Products: ES83, ES84, ES95
Sealer & Finish: ES82, ES96 or ES98

OBSTACLE

Routine dust and damp-mopping must still be performed diligently, for while corded burnishing is faster than spray-buffing, it can still be time-consuming.

RECOMMENDED PROCESS

Floor surfaces will likely be stripped (with ES90) bi-annually and deep-scrubbed (with ES91) semi-annually. High abuse areas will be coated with ES82 only, high visibility areas will be top-coated with ES96 and pre-treated with ES95 ahead of burnishing.

OBJECTIVE

To be fully outfitted to maintain any amount of hard surface flooring with a combination of corded, battery and possibly propane equipment.

RECOMMENDED PRODUCTS

Restoration Products: ES90 (strip) or ES91 (scrub)
Maintenance Products: ES83, ES84, ES95
Sealer & Finish: ES82, ES80, ES96 or ES98

OBSTACLE

This commitment to mechanization and chemistry will allow you and your team to maximize your cleaning potential with the least amount of labor and material cost.

RECOMMENDED PROCESS

With proper top-coat maintenance, full floor surfaces can be stripped minimally (with ES90) and deep-scrubbed (with ES91) as needed. Hard to service areas will be coated with ES82 only, and large open areas can be top-coated with a wide variety of great finishes.
