

SPLASH WAX

VEHICLE CLEANER & ENHANCER

Features & Benefits:

- **DRIES WITHOUT STREAKING**
- **WILL NOT REMOVE WAX**
- **HIGHLY CONCENTRATED**

Description:

Splash Wax is a dual purpose scientifically formulated concentrate especially for washing automobile finishes. Harmless to all automotive finishes including the new acrylic lacquer and enamels. It also produces a glossy shine that beautifies and protects the finish. Works in hot or cold, hard or soft water. Safe, biodegradable, contains no solvents or ammonia.

Directions:

1. Use approximately 2 to 4 oz. of concentrate to 2 gallons of water. Use a jet of water or stir to create heavy foamy suds.
2. Apply solution liberally with a sponge or towel. Rub slightly to remove stubborn dirt.
3. Wash one section of the car at a time. Then rinse thoroughly with clean water before area dries.
4. When properly rinsed, the car will drain without streaking. However, to avoid water spots, wipe area with a sponge or chamois.

IMPORTANT: Do not wash car in the sun or when the finish is hot.

RTU Directions:

Ready-to-use, just spray on and wipe off with a clean cloth, paper towel, or sponge.

No rinse required.

Read label and SDS completely before using this product.

pH: 9.5 -10.5

Colour: Clear Yellow Liquid

Fragrance: None
